

## Health Check to Prevent the Spread of Infections (coronavirus, norovirus, etc.)

○ We will ask the following about your child and family's health

- Have you not had a fever of 37.5°C or higher or displayed any cold-like symptoms (coughing, difficulty breathing, feeling fatigued, etc.) today?
- Have you not had a fever of 37.5°C or higher or displayed any cold-like symptoms (coughing, difficulty breathing, feeling fatigued, etc.) within the past two weeks?
- Have you not had contact with anyone that has tested positive for the coronavirus within the past two weeks?
- Have you not done any international traveling within the past two weeks?
- Have you not vomitted or had diarrhea (symptoms of norovirus) within the past two weeks?
- Do you currently not have chickenpox, mumps, measles, etc. (including the period after symptoms disappear that you are still contagious)?
